FOR A REAFFIRMATION

Majority of Committee Favor Same Resolution on the Tariff.

PLATFORM OF IOWA REPUBLICANS.

Nomination of Candidates on State Ticket Does Not Command as Much Attention as Declaration of Principles.

Des Moines, Ia., July 31.—With the platform expression regarding the tariff practically settled, the Republican state convention had the simple task to select three candidates for three minor offices—clerk of the supreme court, reporter of the supreme court and railroad commissioner.

The convention convened at 11 o'clock in the new auditorium with a large attendance. On the platform were Senators Allison and Dooliver, Secretary of Agriculture Wilson and the full congressional delegation with the exception of Captain J. W. Rumble, who is ill in Chicago. Rev. A. B. Marshall offered the invocation, after which Congressman W. L. Smith of Potawatommie county was introduced by Chairman Spence of the state central committee as the temporary chairman of the convention.

As a result of the congressional caucuses the committee on resolutions reported for a reaffirmation of the Cedar Rapids tariff trust plank in the platform, which reads: "That we assert the sovereignty of the people over all corporations and aggregations of capital and the right residing in the people to enforce such regulations, restrictions or prohibitions upon corporate management as will protect the individual and society from abuse of the power which great combinations of capital wield. We favor such amendment to the Interstate commerce act as will more fully carry out its prohibition of discrimination in rate making and any modification of the tariff schedules that may be required to prevent their affording shelter to monopolies."

When the convention got down to work the following were renominated without opposition for second terms: Secretary of state, W. B. Martin, of Adair; treasurer of state, G. L. Gilbertson, of Winnebago; attorney general, Charles W. Mullan of Black Hawk; judge of the supreme court, Charles Bishop of Polk; auditor of state, B. F. Carroll.

Of the 11 members of the committee on resolutions as selected at the caucuses, seven favor the reaffirmation of the trust tariff resolution and four are for dropping the objectionable words "and any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly."

Internal Revenues.

Washington, July 31.—The commissioner of internal revenue has prepared the annual preliminary report of the operations of his bureau for the fiscal year ending June 30, 1902. The report shows that receipts from all sources of internal revenue for the year aggregated \$271,867,890, which includes \$373,376 tax on money orders turned over by the postmaster general to the collector for the district of Maryland, and for which no expense for collection was incurred, making a decrease of \$35,003,679 from the receipts for the fiscal year which ended June 30, 1901, and which decrease resulted from the provisions of the act of congress of date March 2, 1901, rescinding in part and repealing in part the war revenue taxes imposed under the act of congress of June 13, 1898.

Confidence Restored.

Cape Haytien, Hayti, July 31.—General Albert Sainave, commanding an army in support of M. Firmin's candidacy for the presidency, is camped, with a large body of troops, about three miles from this place. General Nord, who went out to give battle to General Sainave, was defeated and his army retreated in panic to Cape Haytien. The volunteers have abandoned their posts. Confidence has been restored among the foreign residents of the city, thank to the energetic measures taken by Commander McCrea of the United States gunboat Machias and United States Consul Livingston to guarantee them protection in case of an attack on the city.

Appointments Announced.

Paris, July 31.—General Patrick A. Collins, mayor of Boston, has been appointed an officer of the Legion of Honor, and Paul Capdeville, mayor of New Orleans, Thomas, Thomas St. John Gaffney, an attorney of New York and Mr. Duveen a merchant of New York, have been appointed chevaliers of the Legion of Honor.

ENGLISH GOVERNMENT

Withdraws All Claim to Sovereignty to Certain Islands.

New Orleans, July 31.—The steamer Condor, which arrived here from Puerto Rio, Honduras, brings the news that the British government has withdrawn all claim to sovereignty over the Bay islands of Utila, Ruatan Bonaco, or Guana, Felta and Barabara, and acknowledged that they belong to the republic of Honduras.

Great Britain's formal acknowledgement was carried to the islands by the cruiser Psyche, which sailed from Havana under sealed orders on July 17.

The British residents at Rapan were assembled and a proclamation was read to them by the captain of the Psyche declaring that under treaties made between Great Britain and the United States in 1850 and with Honduras in 1860, his majesty's government could no longer regard them as British possession and would henceforth withdraw all exercised jurisdiction of claim to the allegiance of the natives. The population of the islands is almost exclusively of British origin, coming from Jamaica, but there are some Americans from the western states who have recently come in. English is the only language spoken. The islands do a large fruit trade, mainly with New Orleans. The United States government is the only one having a consul in the islands.

Flood in Texas.

Dallas, Tex., July 31.—The flood situation was nowhere improved in southern Texas, while in many places it was worse and the area of destruction greater. One life was lost in the flood during the day. San Marcos experienced the most destructive flood ever known here. The water went three feet higher than the record in the great flood of six years ago. The property losses there will amount to thousands of dollars. At Uplands, G. Smith, a blacksmith, was drowned in Plum creek. That stream is a mile wide at Lockhart. Advices from Cameron say that hundreds of acres of fine cotton are under the water from the overflow of the Brazos and Little river and their tributaries. Fifteen inches of rain has fallen at Palestine in three days causing several washouts on the International and Great Northern road.

Two Victims of Fire.

Des Moines, Ia., July 31.—Firemen found one man dead and another dying in the Stoner Wall Paper company's building in South Des Moines while trying to put out a fire which destroyed \$50,000 worth of property.

The dead man's name is David Watt, night watchman for the Stoner Wall Paper company. The dying man's name is L. P. Miller, night guard for the Longshore mills. It is believed that the two men secured a quantity of liquor, repaired to the office of the wall paper company and after drinking the liquor went to sleep. In some manner the building was set on fire and before the firemen could reach the factory the flames had gained such headway that it was impossible to save much stock and machinery.

A Fatal Wreck.

Elm Grove, Wis., July 31.—In a collision here between a passenger train from Waukesha and a freight train, Dennis McConnell, the engineer of the passenger train, was instantly killed, and the fireman, Thomas Chamberlain, badly injured. Several passengers of the Waukesha train were more or less bruised, although none sustained injuries that are considered serious. The accident was caused by the freight failing to take the siding here. Engineer Connell reversed his lever and applied the airbrake but too late to avoid the crash.

Tracy, the Panther, Captured.

New York, July 31.—The young panther which escaped on Sunday from Bronx park and which has been dubbed "Tracy," after the Washington outlaw, has been captured in Bronxville by a crowd of farmers living in the neighborhood and returned to his cage. John Stears, who lives about one mile east of the zoological gardens, caught sight of "Tracy" near his barns. He gave the alarm and about 200 persons responded, armed with all sorts of weapons. The panther was overtaken, but only two of the pursuers stood their ground. They succeeded in throwing a net over the animal and carried it back to the park.

New Army Post.

San Francisco, July 31.—The new army post to be constructed at Monterey will cost \$125,000. The increase of troops stationed within this state has made barracks necessary. Owing to the excellent sanitary situation, the Monterey post will be used as a station for soldiers returning from hard service in the Philippines and for convalescents.

NAMES OF AMERICANS

Remembered by Emperor William and Prince Henry of Prussia.

The Red Eagle of the third class is bestowed up Samuel H. Ashbridge, mayor of Philadelphia, Julius Fleischmann, mayor of Cincinnati, Rolla Wells, mayor of St. Louis, David R. Francis, ex-governor of Missouri, Arthur Eddy of Chicago and Gustav H. Schwab of New York. Many other Americans were remembered.

The emperor presents autograph photographs of himself to the designers of the yacht Meteor III., Carey Smith and Henry Barbey.

The foreign office announces a list of presents made by Prince Henry. Some of them were conferred by the prince while he was in the United States, but most of them were sent recently. David J. Hill, assistant secretary of state, received a gold snuff box bearing the letter "H" and a crown in diamonds. Rear Admiral Evans was given an enamel portrait of the prince surrounded by diamonds. Major General H. C. Corbin's present was a gold cigarette case, on which was the prince's portrait in diamonds. Colonel Theodore Abingham and Commander W. S. Cowles of the navy each received a gold cigarette case on which was a crown in diamonds and the letter "H." A bracelet bearing the prince's portrait in rubies and diamonds was presented to Mrs. H. H. D. Peirce, wife of the third assistant secretary of state and to Mr. Peirce was given a framed portrait of the prince.

Other presents were given as follows: Major Richard Sylvester, superintendent of the Washington police department; Frank Wilkie, chief of the United States secret service; J. Stubbs, railway official; Cornelius Van Cott, postmaster at New York, and J. B. Reynolds, secretary to the mayor of New York, diamond scarpins.

International Fellowships.

New York, July 31.—In connection with the proposed exchange of fellowship between French and American universities mentioned in dispatches from Paris, it is stated at Columbia university that the proposal in brief is that Columbian university shall establish two annual fellowships of a value of \$1,200 each, the holders of which shall carry on their studies at one or more of the French universities. In return it is proposed that the French government shall establish two fellowships of equal annual value, the holders of which shall carry on their studies for a year at Columbia university. The fellowships are to be open to graduate students only and the holders will be chosen in a manner similar to the present one.

A False Story.

New York, July 31.—Regarding the cabled report that the Standard Oil company has entered, or will enter into an agreement with the Rothschilds and Nobel interests to control the world's production, M. F. Elliott, the attorney of the Standard Oil company, made the following statement: "I am authorized to say that the story has absolutely no foundation in fact. It is false from beginning to end. Furthermore the Standard Oil company has at no time considered a plan of this kind and at no time has that company entered into negotiations about the matter."

Strike on Carnegie Residence.

New York, July 31.—Ordered by the united board of the building trades a general strike has gone into effect on the Carnegie residence, at Nineteenth street and Fifth avenue, this city. Two hundred and fifty workmen are out in sympathy with striking members of the Amalgamated Society of Painters and Decorators.

Negro Hanged.

Memphis, July 31.—Dan Farley, colored, was hanged here for the murder of his wife, July 28, 1901.

AT SAGAMORE HILL.

Senator Thomas C. Platt Strays Out to the President's Home.

Oyster Bay, N. Y., July 31.—Senator Thomas C. Platt and George C. Dunn, chairman of the Republican state committee of New York, are guests of President Roosevelt at Sagamore Hill. They came by invitation of the president to discuss with him the political situation in New York state. They arrived at about 12:30 on the Dolphin and were met at the landing by one of the president's carriages. It was announced the president's contemplated trip to Gardner's bay to witness the gun practice of the Mayflower has been abandoned for the present. This was coupled with the statement that he might go to Gardner's bay in one week to witness the practice of the Mayflower's gun crew.

Pattern For Other Powers.

Washington, July 31.—It is said here that he commercial treaty between Great Britain and China, approved at a conference at the London office, is to serve as a pattern for similar treaties to be negotiated by the other powers with China. By the terms of the Peking agreement, each of the powers is to have equal trade advantages and privileges in China, and it was recognized at the time of signature that Great Britain, with her large trade interests in the east probably would be the first nation to conclude a treaty. It is probable that he United States and the other powers signing the Peking agreement will conclude treaties on the same line so that instead of the composite agreement as to trade privileges embodied in Peking treaty. Each of the powers will have its own convention with China on the question of commercial relations.

Heir to a Fortune.

New York, July 31.—Held by the grand jury of Suffolk county on the charge of causing the death of Clarence W. Foster and "Dimples" Lawrence at Good Ground, L. I., Louis A. Disbrow, in a cell in Riverhead jail is believed to be heir to \$50,000 from the estate of his grandfather, Hosea B. Perkins, who just died at 83 years. He had been sick for more than a year and when the Good Ground tragedy and Disbrow's connection with it became known there was much speculation as to whether he would make any change in his will, which it is understood provided a legacy of \$50,000 for each of his grandchildren.

To Develop Oil Land.

Santa Barbara, Calif., July 31.—A deal has just been consummated whereby practically all of the oil-producing interests of Summerland, located on the sea shore about four miles south of this city have been consolidated and the product will hereafter be handled by a syndicate of eastern capitalists, who have subscribed \$700,000 for development purposes. The consolidated property consists of 17,875 acres of oil land with a water frontage.

A New Explosive.

Washington, July 31.—A new time fuse for use on armor-piercing shells loaded with a recently discovered secret explosive of great power, has been invented by war department ordnance experts and will revolutionize foreign warship building. Tests of the explosive and fuse have been made and so long as the United States holds the secret, foreign battleships either must double their steel walls or be as wooden frigates.

Arrest of Alleged Murderer.

Meadville, Pa., July 31.—William J. Coniber was arrested at the Keyler hotel charged with the murder of Horace Halpin, a huckster in Orleans county, N. Y., on Sept. 14, 1899. It is said that Coniber asked Halpin for a ride and after the request had been granted he shot Halpin through the head and then robbed him. A reward of \$500 was offered for Coniber's capture, but he eluded arrest for three years.

To Make Paper.

San Francisco, July 31.—Twenty-three sacks of chaff or refuse of sugar has been extracted from cane brought from Hilo by the bark Santiago and will be shipped east to be used in an experiment for paper manufacture. Thousands of tons of the chaff are burned or otherwise destroyed on sugar plantations in the Hawaiian islands, but observing men believe it can be successfully utilized in paper manufacture.

Guayaquil, Ecuador, July 31.—President Plaza will ask congress for an appropriation to enable Ecuador to take part in the St. Louis exposition.

An exposition is planned to be held in Guayaquil next May, and it is expected the exhibits at that fair will be sent to St. Louis. The Ecuadorian board of emigration is greatly interested in the plans for the St. Louis exposition.

MOREDEMONSTRATIVE

Striking Miners Are Reported to Show Greater Activity Daily.

MOB OF MEN AND BOYS ON MARCH.

Nonunion Workmen at Colliery Driven From the Engines—Other Developments in the Anthracite Region.

Shenandoah, Pa., July 31.—The attitude of the striking mine workers is daily becoming more demonstrative. All night a mob of fully 1,000 men and boys were on the march. They first visited West Shenandoah colliery and drove the non-union workmen from the engines, pumps and fire rooms. The workmen were compelled to seek refuge in the camp of the coal and iron police. The strikers assailed the breaker with stones, doing much damage to window glass. From the West Shenandoah mine the mob proceeded to Indian Ridge colliery, where they were confronted by a body of special police, whose presence prevented violence.

Squads of strikers picketed the approaches to several mines where pumping is in progress and urged the men employed to quit work. Deputy Sheriff Coombs, Union Organizer Gliney and a posse of deputy sheriffs are here endeavoring to maintain order.

Miners Depart.

Wilkesbarre, Pa., July 31.—The departure of miners from the anthracite region to the bituminous fields continues. About 30 men left for Indiana. The officials of the United Mine Workers find they cannot provide places for all the applicants who want to leave and this is causing some dissatisfaction among the strikers. Fully 500 idle miners were gathered around President's headquarters and they all wanted to go west. The men were told that as soon as work was found for them they could make the journey. A mob gathered at Duryea again expecting that an attempt would be made to start up the washery. Sheriff Jacobs sent a number of deputies to the scene, but their services were not needed as no effort was made to resume work.

Non-Union Men Interrupted.

Shamokin, Pa., July 31.—Hundreds of strikers lined the roads leading to different collieries and prevented the non-union men from going to work. John Shipman and son, non-union men, were brutally beaten. The strike leaders are busily engaged in trying to calm the strikers, who have grown more restless. President Mitchell will visit here as soon as possible to address the men in an endeavor to keep them from breaking the law and also to urge them to remain away from the mines.

Power House Destroyed.

Harrisburg, Pa., July 31.—The explosion of a gasoline engine at the mines of Jacob Shiro, an individual operator at Short Mountain, wrecked the power house and destroyed the breaker and storage house. The loss will amount to thousands of dollars, partly insured. The damages from the wrecked power house were communicated to the adjoining buildings and all were destroyed, no fire fighting apparatus being available.

Rose Coghlan's Venture.

Butte, Mont., July 31.—A special from Helena says that Rose Coghlan, the well known actress, known in private life as Mrs. John S. Sullivan, has declared her intention in the district court of Lewis and Clark county, to become a citizen of the United States. Mrs. Sullivan came here from the Yellowstone park. It is announced that she will take up a ranch for cattle-raising purposes.

Bloodhounds Wanted.

Evansville, Ind., July 31.—Word received from Lynnville, Warren county, 20 miles from here, asking that bloodhounds be sent to assist in tracking two men who shot Postmaster Zimmerman and robbed the office. Chief Henke sent a number of men in the direction of Lynnville and expects to get trace of the robbers. Zimmerman's wound is serious and he may die.

Muskogee, I. T., July 31.—Ispachor,

the aged ex-chief of the Creek, has sent the following telegram from his home in the Creek nation to United States Marshal Bennett: "Send officers to my house. I am in trouble. Do not fail." Ispachor has recently been subjected to many indignities at the hands of the full bloods known as the Snakes, who are opposing the dissolution of their tribal government and it is believed they have threatened the ex-chief. Marshal Bennett has sent six deputies to the scene.

With due and careful economy and under the blessings of the protective tariff, which Secretary Root says should be revised, the poor little infant steel trust may be able to fight off the wolf from its door for a little while yet.

The administration mouthpiece, the Philadelphia Press, in its editorial correspondence, says that the President and Attorney-General Knox are proceeding against the trusts in their own way. "They are trying to bring down their game with blank cartridges, and the game has gotten so accustomed to it that they sit still and allow themselves to be shot at," remarks a writer.

THE LATEST SOLUTION OF AN OLD PROBLEM.

The traditional query—"Who were the Mound Builders?" does not seem to lose its popular interest. In the midsummer Harper, there is a paper by Charles Hallock, M. A., entitled "The Primeval North American." The writer says that with the disappearance of the great Northern glacial sheet, the crowded populations of Central America sought relief by migration upon divergent routes, the migration extending northward as far as Lake Superior, the general course of the movement being marked by the construction of defensive earth-works, etc., which have been attributed to "a hypothetical people termed Mound Builders." In later epochs there were frequent influxes of people from Asia by way of Bering strait, distributing themselves over the continent and occupying the most attractive uplands—"notably the region south of the lake, as is made evident by the abandoned copper mines of Lake Superior and the many mounds and defensive earth-works in Ohio and contiguous territory." Coronado in 1540 found populous communities in New Mexico and Arizona. Driven by the Spaniards into Eastern Colorado, they established thrifty settlements as shepherds and agriculturists, some of which remain to this day and are known as "pueblos."

These pueblo Indians carried their exploratory migrations far into the wilderesses of the East, where they came in collision with "sedentary forest tribes," and the resulting struggle for territorial possession "accounts in large part for the suggestive zone of mounds which extends from the Gulf of Mexico to Lake Superior." Outside of this zone of ten meridians there are no such works east of the Rio Grande. For 350 years this territorial strip was disputed ground, the principal seat of the struggle being in Ohio "where there is every evidence of pitched battles in front of long entrenchments." There are mounds innumerable—burial mounds, sacrificial mounds, signal mounds and animal mounds for ornamental purposes—the last "copied from Aztec and Toltec-gardene, * * as we copy patterns from the old world."

The "advanced" school of ethnologists—whose sole function is to reverse accepted decisions—will probably stand aghast at the conclusions in Mr. Hallock's paper. This school of writers is in a perpetual attitude of antagonism to theories that ascribe a higher position in the scale of civilization to the Mound Builder than to his territorial successor—the common red Indian of historic times. But, after all, that is the best theory which gives the most consistent and satisfactory explanation of the facts. Pertinacious insistence upon piet hypotheses proves nothing.

Bargains Are Ripe!

Money earns biggest returns through its spending when it secures such values as we are now giving in Irish Dimities. The price is by no means the chief fascination about these beautiful Dimities. The exquisite patterns tempted many women when the price was nearly twice as much. There is one manufacturer in Belfast whose name stands above all others for fine quality and beautiful designs—these Dimities came from him. There are no finer made.

Regular 25c. Quality

Now 15c. a Yard!

Many of the patterns are in the scarce white grounds with colored figures, dots and stripes. There are also many of the exquisite Pompadour designs you like so well. Then there are grounds of light blue, Navy blue, China blue, pink, gray, heliotrope, primrose and black, with big and little dots, wide and narrow stripes.

REPUBLICAN SCHEME.

Judge Wilhoit of Carter Tells of Their Plan to Defeat Paynter in the Appellate Race.

[Enquirer.]

Former Judge E. B. Wilhoit, a prominent lawyer and influential Democrat of Grayson, Carter County, Ky., has been mentioned as good timber for the Democratic nomination for Attorney-General, but says he is not a candidate for any office.

"If Hon. Chas. B. Poyntz of Maysville is a candidate for the nomination for Lieutenant Governor, as I am informed he is," said the Judge, "I shall support him with much cordiality, for he is my personal friend, and we are in the same congregational district. I am in favor of the renomination of Gov. Beckham, and am confident that I voice the sentiment of the Democrats in our county, a large majority of them, at any rate. Our Appellate Court Judge's district is rather close, and I think we have discovered how the Republicans will attempt to steal a march on us. The Republicans realize that they cannot hope to defeat Congressman Kehoe, who will be returned by 1,000 majority at least, and they will endeavor to swap off votes in that race for votes in the Appellate Judgeship race, but it won't work. Our real danger is overconfidence and a failure to bring out the vote. We must organize thoroughly, and Judge Paynter's popularity will do the rest. The Republicans will leave no stone unturned to elect their Appellate Judge candidates so as to control a majority of that court and save the Goebel assassins now before the bar of justice."

BEAUTIFUL RUGGLES.

A Delightful Place Where the Associations Are Inspiring—Bishop Walden to Preach Next Sunday.

RUGGLES CAMP GROUND, July 30, 1902.

My Dear Mr. Editor: We, who are here at Ruggles, are wondering why you do not lay aside the multitudinous cares with which you are beset, and come out here and enjoy this beautiful place with all its inspiring associations.

The grounds are more beautiful than ever. Yesterday brought us a delightfully refreshing rain; to-day the sun shines gloriously, and the air is clear and invigorating. A large consignment of chickens has arrived, and if you are in time, Mr. Editor, you shall (as regards chicken) be considered a preacher. Now come on, leave "cat" and stick, type and "devil," and come out here to beautiful Ruggles.

Maysville is well represented here, and of preachers we have a goodly supply. Revs. Piers, Davenport, Clite, Willis, Shepard, Jones, Spencer, Davis, Boreling, Northcutt, and Harrop are here, and our visitors to-day have been Dr. Vaughn P. E. and Revs. Clark of Mt. Carmel, and Peebles of Tolleshoro M. E. Church South.

Last Sunday Dr. Fuller of Cincinnati preached two fine sermons; all the preachers are at their best.

Next Sunday Bishop Walden of Cincinnati will preach and we are fully confident that Maysville will send a big delegation to hear him.

Miss Gaffimore is conducting children's services daily. Young people's leaders are Mrs. J. H. Dodson, Miss B. Walsh, B. K. Muse and Miss Barth, of Latonia. All the services are hearty and enthusiastic—much good is being done—people are inquiring the way of salvation from sin, and spiritual life is quickened and made strong. Again, Mr. Editor, we say come out and we will join in a truly hearty welcome to this place where God is daily honored.

One of the best things about the meeting is the unanimity of purpose amongst Christian people; they are here from Tolleshoro, Carmel, Slaysville, Vanceburg, Burtosville, Rectorville, Quilucy, Foxport, Flemingsburg, Newport, Latonia, Beechburg, Mudlick, Indiana and Illinois—all represented by people of every denomination, working for the common good. Among late arrivals is Jno. Nelson Trapp, who is now busy fishing for tadpoles and terrapins. Rev. W. H. Calvert and Mr. Ed. Bryant came to-day. All the privileges are in the hands of competent people, and all visitors will be well taken care of. F. W. H.

Plaintiffs charge that Charles Walker, on February 7, 1900, drank intoxicants to excess at Moser's saloon, and in consequence was thrown from a buggy and killed. A verdict giving the plaintiffs damages was appealed.

Just about now your spring Coat and Vest does not yet show much wear, but your Pants probably do. A new pair of Breeches, Pants or Trousers with your Coat and Vest will put you "all right" for the balance of the season. To clean up our spring stock of Pants, we will sell on next Saturday and the following Monday, until closing time,

Any Pair of Pants in Our Stock (Not a Pair Reserved) 1-3 Off the Regular Price.

We will not have to close the store to mark them down, they have been marked in plain figures ever since they came in the house.

All you want is a pencil to deduct "one-third" off the marked price, pay the money and take the Pants. As a matter of course money returned if not pleased with the purchase.

On Saturday, and on that day only, we will sell our Blue Camlett Pants at 40 cents.

BITE PROVED FATAL

In One Case, But Life of Another Child Probably Saved by Prompt Use of a Madstone.

The six-year-old son of Mr. James Sweet living near Rectorville, bitten by a mad dog some three weeks ago, has since died, in convulsions. Three days after the child was bitten it was taken to the Lee home near Ruggles where a madstone was applied, but the system had become inoculated with the poison, and the bite proved fatal.

A little son of Mr. Henry Soward, who lives in the edge of Fleming County, was bitten by another dog few days after the Sweet child, but was taken at once to the Lee home where the madstone was applied, and the little fellow was all right at last accounts.

This madstone has been in the possession of the Lee family over a hundred years, having been brought from England by a Mr. Parker, great-grandfather of the present Lee brothers.

[Ripley Bee.]

Meers G. Bambach, E. E. Galbreath and A. White were at Georgetown last Friday in consultation with some railroad officials, and considering propositions received from financiers to furnish money for a road from Hillsboro to Sardinia, Georgetown, Ripley and Aberdeen. Four or five propositions were made and it begins to look like Ripley would be forced to do something or throw up the sponge.

Yarnell and Dressel, one of Maysville's star batteries, went down a few days ago and helped Ripley defeat Georgetown. It was the Ripleyites' first victory over their neighbors at the county seat, and the Bee is crowing long and loud over it. The Bee commends the Maysville battery very highly and says: "Yarnell pulled himself out of a tight box in the seventh by cool head work. Three men were on bases and only one out, but he made the next two batters pound the atmosphere. It was on such occasions as this that he let himself out and showed what a great pitcher he is. He did not hit a man or give a base on balls, which is quite a record for any twirler."

Attorney Harvey Myers, of Covington, has filed suit against the State of Kentucky for the Pettibone Manufacturing Company, of Cincinnati, and the M. C. Lilly Company, of Columbus, Ohio, for a sum aggregating \$8,000 for uniforms and equipments furnished the Kentucky State Guard in the last month of Governor Buckner's administration, in 1861. The bills for the goods were not sent in till after Governor Brown was inaugurated in September, 1861, and he refused for some reason to approve any of the bills made by the State encampment that year and they were never paid. The last session of the Legislature passed a bill authorizing the two Ohio firms to sue the State and test their claims in court.
